## MIR HABIB UL LATIF

50, West Malibag, Dhaka-1217

### OBJECTIVE

I am a motivated individual with in-depth knowledge on various programming language and developments tool, seeking a position in a growth-oriented company where I can use my skills to the advantage of the company while having the scope to develop my own.

### SKILLS

Laravel  
Express  
Mongodb  
MySQL  
React  
React Native  
Nodejs  
JavaScript  
Python  
Php  
C++  
Java  
Mongodb Realm (Serverless)  
Netlify Serverless

### INTERESTS

Apart from being a Software Engineer, I enjoy most of my time hangout with my friend travelling and eat the most delicious food that a place could offer.

At my leisure, I follow a number of crime-thriller genre movies, television series and football, I am an avid Arsenal FC fan, and I also spend a large amount of my free time exploring the latest technology advancements in Machine Learning and Artificial Intelligence.

### EXPERIENCE

#### Tech Hack Canada

01/07/2021 - current

Full Stack Developer

In TechHack i am helping them to build a hiring platform which will work as a bridge between the Bangladeshi engineers and the overseas employer. As a new startup i have to coordinates with a small team to design the system, building the backend and also integrating the api with frontend.

#### Tech Dojo

01/01/2020 -  
01/06/2020

Intern

As an intern in Tech Dojo i help them to build a House rental app using react native. The app will allow the users to put their house in rent and find the house for rent in Dhaka city

### PROJECTS

#### React Serverless Authentication

A serverless and stateless JWT authentication system for react app build using netlify function.

**Technologies Used:** React, React hooks (context api, useEffect, useState)

Github: <https://github.com/mirsaib/React-Serverless-Authentication>

#### House Rental Management System

The HRMS is a management tool to manage the tenant in my house.

**Technologies used:** Laravel, React, MySQL

Github: <https://github.com/mirsaib/Project-Whirlpool-frontend>

#### Book-Ally

A Social Networking app based on users book interest

**Technologies Used:** React Native, Mongodb, Express, NodeJs, Python (easyOcr), Figma

Github: <https://github.com/mirsaib/BookAlly-Mobile>

#### DPDC Bill Manager

An app to manage multiple electricity bill for Dhaka Power Distribution Company

**Technologies Used:** Nodejs, MongoDB, React, Express, Puppeteer

Github: <https://github.com/mirsaib/DPDC-Bill-Manager>

#### Project Annex

This application will generate visual representation of semester wise student enrollment, and categorize it by the school and majors. It will have options to compare results with others semesters from previous semesters and give us a numeric comparison, which will help the university officials to make decisions.

**Technologies Used:** Nodejs, MongoDB, HTML & CSS

Github Link: <https://github.com/mirsaib/Project-Annex>

Live Project: <https://project-annex.herokuapp.com/>

#### Project-Uranus

In this project we present the development and implementation of an Inertial Measurement Unit device which is used to collect data (accelerometer, gyroscope, magnetometer) from different position of the human hand.

**Technologies Used:** Arduino, Python

Github Link: <https://github.com/mirsaib/Project-Uranus>

#### Mern Skeleton Cli

The mern CLI is a command-line interface tool that helps you to initialize, develop, and maintain your mern-skeleton project.

**Technologies Used:** JavaScript

Github: <https://github.com/mirsaib/mern-skeleton-cli>

## EDUCATION

---

**Independent University Bangladesh**

**Passing Year - 2020**

B.Sc Computer Science

Grades : **3.14**

**Cephalone International**

**Passing Year - 2015**

A level

Grades : **Mathematics-B**

**Physics-B**

**Cephalone International**

**Passing Year - 2013**

O level

Grades : **A-2,B-3,C-1,D-1**
